

September 2023

Dear Parent/Carer

Year 11 Post-16 Options

We know that making decisions for future study after Year 11 is very important and that there are many pathways to consider. Throughout their time at Scalby, we have provided students with careers education to enable them to ensure that they choose the most appropriate route to take in September 2024. It is compulsory that all students are in some form of education, training or work-related learning until their 18th birthday. This does not mean staying in school, although many chose to continue studying full time within Sixth Form or with a further education provider. As a school, we are proud that 99% of students in the most recent Year 11 cohorts were engaged in education or training. In order to support students and parents with these important decisions, we have collated below information about different further education providers, supporting resources and events that are taking place.

The latest information on Careers/Post 16 opportunities can be found on the school website <https://www.scalby.coastandvale.academy/for-pupils/careers-and-guidance-raising-aspirations/> where will post key dates, apprenticeship information, comprehensive range of information about career choices and pathways which is updated regular.

Careers Guidance Interviews

All year 11 students are guaranteed an individual careers guidance interview with Mrs Barker, our Careers Advisor. Many of these interviews have already taken place; however, Mrs Barker is continuing these interviews with students who have not yet received one or where there are actions to follow-up. An individual careers action plan is produced after the interview and posted home. If students would like another interview, or if parents would like to take part with their child, please contact me via email to arrange: v.leat-smith@sc.coastandvale.academy We would like to support you and your child as much as possible to ensure that they make the right decision for post-16 study.

Timetable of events

Scarborough TEC <https://scarboroughtec.ac.uk/>

- 9th March 10.30am-12.30pm

Scalby School
being the best we can be

<https://www.careerpilot.org.uk/> provides further information on exploring options and planning next steps. During this term we will invite all local post 16 providers to visit Scalby and speak to our year 11 students during Life lessons. This will help support students in making decisions. Our intention is to have all post 16 applications completed by December 2023.

Yours sincerely

Mrs V. Leat-Smith

Careers Leader
