This form should be used by students when applying for a 16–19 bursary, to assess which bursary, if any, the student will be eligible for – either a vulnerable or discretionary bursary. Students should complete the form; however, a declaration should be signed by both the student and their parent to indicate that the information given in the form is correct and up-to-date. **Funding is not guaranteed.**

Section three – guaranteed bursaries

This section is for students who may be eligible for a vulnerable bursary and an allowance of up to $\pm 1,200$. If any of the below criteria apply, students are eligible to apply for a vulnerable bursary.

The institution assesses each application on a case-by-case basis and eligibility **does not entitle any student** to receive the bursary. If a student is eligible for a vulnerable bursary, but the institution does not believe the student requires it, e.g. there are no financial needs, or financial needs are already met via alternative means, the institution may not allocate the student a bursary, or may offer a reduced allowance.

If any of the below criteria apply, please tick as appropriate. If none apply, please skip this section and go to section four.

Section four – discretionary bursaries

This section is for students who may be eligible for a discretionary bursary – these will be allocated on different levels (1, 2 or 3) based on a student's needs. The institution assesses applications for discretionary bursaries on a case-by-case basis and will decide how much funds should be allocated, should a student's application be successful. Discretionary bursaries may be equal to or more than the £1,200 available for vulnerable groups if a student requires this level of funding.

Household income will be considered alongside the other factors in this section to determine whether a L1, L2 or L3 bursary may be awarded.

Please provide a tick below if any of the following criteria apply. If you tick 'Yes' to any of the below, please proceed to **section five**.

Section six – important information

Dates for submitting applications

All applications for the bursary should be submitted in a timely manner to correctly and fairly assess overall demands and distribute discretionary awards.

We do understand, however, that some needs may arise throughout the academic year. We do not implement a cut-off date for any application, so we can ensure students' needs can be met during the academic year. Wherever possible, however, applications should be submitted by the date outlined above so that funds can be distributed at the beginning of the next academic year.

Meeting attendance and behaviour expectations

For an application to be successful, all students must meet the agreed standards for attendance and behaviour set by the institution. Students must adhere to the Student Code for Learning and have a minimum attendance rate of 95 percent at timetabled lessons to continue to be eligible for a bursary.

If absences are authorised, this will not affect a student's eligibility for the bursary. Vacation breaks and unauthorised absences are not permitted during school time and will affect their eligibility.

Students and parents should be aware of the impact that poor attendance and behaviour may have on eligibility for a bursary. Where there are concerns regarding attendance or behaviour, the institution may withhold further payments of the bursary. The institution will also stop payments where a student has been absent for a period of four consecutive weeks or more, excluding holidays or if the student intends to return.

Before withholding any payments, the institution will consider the effect that this may have on students' individual circumstances.

Providing false information

Students and parents must be aware that any evidence provided to support this application must be valid. Where false information is supplied, the institution has the right to investigate this. The institution will stop further payments and attempt to recover any past payments where it is apparent that supplied information is misleading or fraudulent.

If significant fraud is identified, the institution will report this to the ESFA and may also report it to the police. This involves the following:

- The amount of money is in excess of £1,200
- The particulars of the fraud are novel, unusual, systematic or complex
- There is likely to be great public interest due to the nature of the fraud or the people involved

Maintaining confidentiality

Any information given to the institution will **only** be used for the purpose of processing your application for a 16-19 bursary. Your information, eligibility or application (whether successful or not) **will not** be shared with other students or staff members. Where we deem it necessary to share this information, we will only do this with your **consent**, unless the law permits us to do so. We understand the need for maintaining confidentiality and appreciate that applications for the bursary are sensitive.

The institution has the duty to protect public funds that are handled by the school. The information provided in this form may be used to prevent and detect fraud. For the same reason, the information provided may be shared with third party organisations who handle public money. You will be informed if your information is being shared in accordance with the GDPR. The information will be held in accordance with storage requirements defined by the GDPR and will be held for as long as necessary.

Section seven – declaration

I confirm that the information provided in this application is accurate and correct. I understand that any incorrect information provided will lead to the rejection of the 16-19 bursary application. If any information presented in the form changes, I will inform the school immediately to ensure funding is allocated correctly.
